

## S8500 ENVIRONMENT POLICY

Orbital Autogas Systems embraces the principle of sustainable development, ie. development which meets the needs of the present without compromising the ability of future generations to meet their own needs. We believe this principle is fundamental to Orbital Autogas Systems' continued success and growth.

Orbital Autogas Systems is committed to pursuing industry specific best practice in environmental performance. We acknowledge that our shareholders, employees and the community at large expect responsible environmental practice by Orbital Autogas Systems's businesses.

Specifically Orbital Autogas Systems is committed to:

- a. Conducting our operations to minimise environmental risk and, wherever practicable, eliminate adverse environmental impacts
- b. Continual improvement of our environmental performance including regular review and the setting of rigorous environmental objectives and quantified targets – particularly with regards to:
  - (1) efficient use of energy (including appropriate use of alternative fuels)
  - (2) conservation of water
  - (3) minimisation and recycling of wastes
  - (4) prevention of pollution
  - (5) effective use of virgin resources and supplemental materials
- c. Open, constructive dialogue with communities surrounding our operations
- d. Reducing the greenhouse gas emissions from our processes and facilities
- e. Complying with environmental legislation, regulations, standards and codes of practice relevant to the particular business as the absolute minimum requirement in each of the communities in which we operate
- f. Conducting business with suppliers and contractors who have a commitment to the values and objectives contained in this environmental policy
- g. Remediating our contaminated sites to standards internationally acceptable for the site purpose.

To support these commitments, Orbital Autogas Systems will progressively implement and maintain environmental management systems for its businesses based on the international standard ISO 14001 or its equivalent.

Through communication and training, our employees and contractors will be encouraged and assisted to enhance Orbital Autogas Systems's environmental awareness and performance.
